

Information regarding NDPC Cable TV system.

The Annual General Meeting (AGM) held the 22nd of February 2018 decided to change Cable TV provider and upgrade both buildings TV system.

TMN Cable TV Pattaya is the present TV signal provider on a yearly based agreement. The channel selection is a standard package under TMN control only.

TMN is providing all units in NDPC with Analog and Digital TV channels. You can download the Channel guide on: www.tmncabletv.com

Unfortunately, to enable the Digital Channels on your TV set, you need a **Set Top Box** type Aconatic 357T2 or similar. Normally several shops at Tukcom located in Pattaya Second Road have what you need.

The NDPC Board is hoping you enjoy the mandatory TV system.

NDPC Board, May 2021
